

## PHYSIOTHERAPY FOR CHRONIC RESPIRATORY DISEASES EDUCATION SERIES 2025

### SESSION TWO

# DYSFUNCTIONAL BREATHING: THEORY IN PRACTICE

As a not-for-profit organisation striving to promote confidence, skills, and knowledge in physiotherapists working with people with chronic lung disease, this series will deliver content across a wide variety of topics applicable across many respiratory conditions.

Registration is \$60 to attend two live one hour virtual sessions. These sessions will not be recorded. In this session Janet Bondarenko, Dr Kathleen Hall and Joanne Leavitt will explore all you need to know to improve your understanding of dysfunctional breathing. You will have the opportunity to learn more about how dysfunctional breathing may present in the acute and outpatient setting, your role as a physiotherapist in identifying dysfunctional breathing, and strategies for supporting individuals who are experiencing dysfunctional breathing. With two sessions, case studies and practical approaches will be a strong focus to enhance your learning.

If you have any issues registering or questions please email Jen Hauser at [cfphysioinc@gmail.com](mailto:cfphysioinc@gmail.com)
