

PHYSIOTHERAPY MANAGEMENT IN CHRONIC RESPIRATORY CONDITIONS EDUCATION SERIES 2026

Physiotherapy Management of Paediatric Bronchiectasis and Primary Ciliary Dyskinesia

LIVE 1.5-HOUR EDUCATION SESSION

MONDAY OCTOBER 12th, 7.00PM (AEDT)

If you are a physiotherapist working in the acute hospital setting, remote regional communities or in outpatients and treating infants, toddlers and teenagers with Bronchiectasis or PCD this session is for you. Attending the 1.5 hour live virtual education session hosted by CFPhysio.com Inc will provide you with an opportunity to learn from experienced clinicians about latest disease guidelines and management of this rapidly growing area of respiratory disease. You will learn about physiotherapy approaches to manage airways, maintain health outcomes, and support individuals and their family to navigate a chronic health condition.

Registration: \$45

This session will NOT be recorded

Presenter: Julie Depiazzi
Respiratory Co-ordinator
Perth Children's Hospital

Presenter: Crystal Bourke
Senior Physiotherapist
Perth Children's Hospital
